

What Parents are saying about JollyPop Pacifier...

Everything you love about GumDrop™ & Soothie® PLUS MORE! Safer, More Comfortable & Even Lighter Weight

Best of Both!

"JollyPop is the best of both worlds between the Soothie and GumDrop. Softer feel while fitting baby's mouth better so he keeps it in longer. I really love the clear with a touch of color. GREAT!"

Miranda; Sevierville, TN

One Piece

"I like the fact that JollyPop is one piece. Sometimes the GumDrop inner piece would break."

Barbara; Greene; KY

Loves it More Than GumDrop

"My son loves it more than his GumDrops. I like that it is more pliable than the GumDrops and that it has a teething portion. If I had to give this product a 1-5 star rating, I'd give it a full five stars. We love the GumDrops and love the JollyPop even more."

Gade; Salinas, CA

Fits Oxygen Cannulas

"The shape of the JollyPop is great! My son was born at 25 weeks and is currently on oxygen. The shape of the JollyPop allows his cannula to fit."

Noelle; Valders, WI

Love the Loop Handle

"The loop-shaped handle makes it easier to put in baby's mouth. And it's so convenient to loop on my finger while I care for my baby."

Kristie; Escanaba, MI

Easier to Hold

"I love the handle. It's easier to hold and attach a pacifier clip; and it makes it easier for my baby to put JollyPop in his mouth."

Lori; Frisco, TX

Soft & Flexible

"I thought the JollyPop was great! My daughter was able to keep the JollyPop in her mouth better than the GumDrop. I think it was because of the soft flexible material. It seemed to fit the shape of her mouth better."

Tricia; Cherry Hill; NJ

Easier to Keep in Mouth

"They loved them from the second we gave them! Love the handle and the lightness of the pacifier made it easier for them to keep in their mouths."

Taylor; Canaan, CT
